

Product description: SNI01A

DESCRIPTION		
<p>Low-profile FYRA analogue-addressable smoke detector with built-in isolator, EL.MO. brand, SNI01A model.</p> <p>SNI01A can be used in fire detection systems controlled by EL.MO. control units that mount FYRA loop boards or modules.</p> <p>It features a built-in integrator and a remote LED output and it can be programmed by using the PGTFYRA programmer.</p> <p>Technical specifications:</p> <ul style="list-style-type: none">- Alarm threshold smoke: 0.08-0.13 dB/m- Operating voltage power supply: 24 V; maximum: 28.0 V; minimum: 17.0 V- Consumption at power voltage idle mode: 0.3 mA; alarm mode: 1.8 mA- Voltage at remote LED terminals 24.0 V- Max consumption of remote LED 3.5 mA- Inhibition time at power on 5 s- Alarm indicator 2 red LEDs, fixed light- Protection class IP 43- Dimensions H49 × Ø100 mm- Weight 145 g- Working temperature -10 - 50 °C- Relative humidity 93%- Certifications CPR 305/2011 EN54-7, EN54-13, EN54-17; 2014/90/EU (MED); LPCB; UAE CoC
